PROFILE

Highly resilient, enthusiastic, and logically driven programmer with a background in management, logistics, and leadership. My experience as a Logistics Assistant, Senior Content Moderator, and Front of House Supervisor has honed my problem-solving, communication, and organizational skills. I am eager to apply these strengths, along with my technical expertise in Java, JavaScript, Mongoose, PSQL, Test-Driven Development, and React, to build impactful software solutions.

WORK EXPERIENCE

Trainee Software Engineer - Digital Futures 04/2024 - Present
